

### Success Stories- UNHCR Code-4-Fun

*Please describe the story of an individual or beneficiary who has benefited from the UNHCR program this year. We are particularly interested in highlighting aspects of our work that are innovative or that have made a significant difference in the life of this individual.*

Beneficiary's name	Asma (Tourab).
District and Province	Qalat, Zabul, Afghanistan.
Age	20-Year-Old.
Sex	Female.
Current context-family, where they live, their day-to-day life, difficulties they face	<p>Asma (Tourab), the daughter of Mohammad Nasim (Tourab) , is 20-years-old, resident of Likak street in Qalat district, Zabul province.</p> <p>Also helps with her sole provider to complete her family needness of (14) members, Asma (Tourab) shown deep commitment to supporting her family and contributing to her community. Over the years, she has worked in various communities, including as a teacher in a Center of English, and in Madrasa, where she educated and inspired young children to continue their studies, and later as a first aid volunteer in a provincial hospital, helping to spread awareness and educational messages across her community.</p>
<p>Their story- what happened to them, when, how and why;</p> <p>- Why and how they became involved with programs? What their life was like before? How things have changed/improved? how the project affected them!</p>	<p>Asma Tourab's situation changed dramatically when the door of school closed in face to women , The economic challenges, coupled with the unstable political situation in Afghanistan, made it extremely difficult for her to finish school , continue higher education for making her character and finding a best job for her to continue their life by good like with her family .</p> <p>Till Asma Tourab is hopeful and dreamed of generating her own income to maintain her independence and support her family with dignity.</p> <p>When the UNHCR Code-4-Fun program was launched in Zabul province, Asma Tourab saw it as a life-changing opportunity.</p> <p>The program, implemented by CHA, focuses on professional computer science and income-generation skills, offering training in HTML, CSS, JavaScript, Bootstrap 5, and PHP. It aims to empower young people and vulnerable individuals with digital skills that can open doors to employment or small business opportunities. Through community engagement activities , Asma Tourab was selected and enrolled in the program.</p>
Description of where they live/their environment; their attitude; their appearance; their expression when you talk to them; their interests, ambitions	<p>From the first beginning ,Asma Tourab realized that Code-4-Fun was different from any other training program. It provided a professional learning environment where participants could develop advanced technical skills. Through the program, she learned how to design databases, create websites, and use modern programming tools that are essential in today's job market. Over time, she gained not only practical technical knowledge but also confidence, discipline, and the ability to manage stress and plan.</p> <p>The family of Asma Tourab was supporter in this journey to continue her lessons, encourage her to continue his studies and often express how fortunate they feel that UNHCR and CHA have provided such an opportunity in their province.</p>

Any direct quotes from the beneficiary	<p>After completing Code-4-Fun class of computer, Her goal is to use the skills she has gained to create a sustainable source of income and contribute to her community's development.</p> <p>She also hopes to support other youth by sharing her knowledge and encouraging them to pursue education and self-reliance.</p>
Comments from their family; the program officers; CDCs, or the FP focal point/ interviewer	Asma Tourab believes that the Code-4-Fun program has transformed her life. It has given her hope, confidence, and the professional skills needed to build a better future for herself and her family.
